Portable Wash-Ware® can be set up anywhere clean hands are needed! Not only can they be quickly and easily placed in any location, indoors or out, they can also be swiftly moved whenever needed. The durable stainless-steel housing is suitable for indoor and outdoor applications.* Portable Wash-Ware units ship pre-assembled—just add a faucet and go!

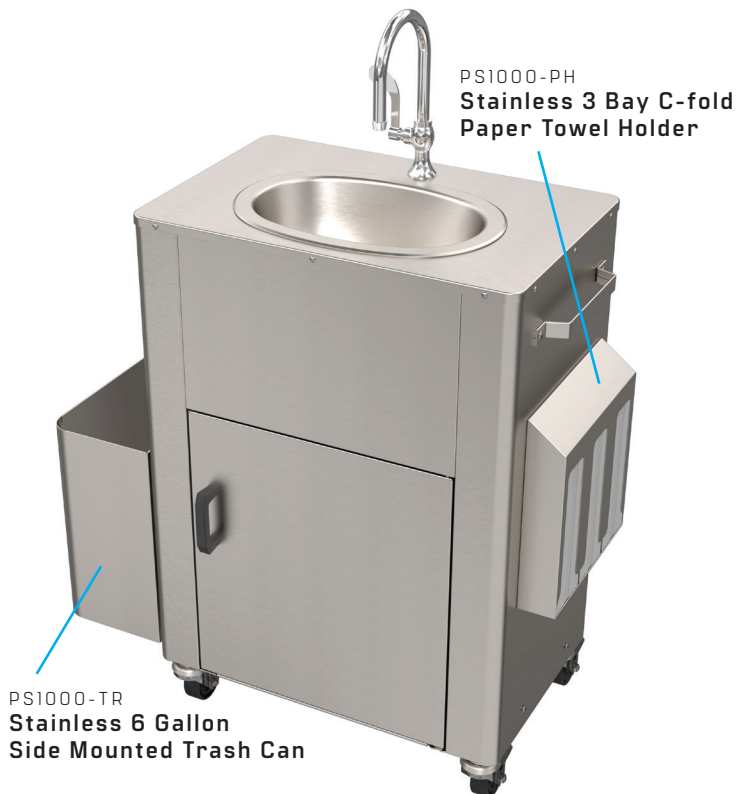

FEATURES

- Swivel casters for smooth transit, roll it where you need it!
- Integrated attachment points for paper towel holder and trash can accessories
- Integrated ball-valve for easy shutoff when draining waste tank (not available on pump models)
- Hose models provide convenient hand-washing anywhere a hose can reach
- Plug-In electric pump model delivers water from a tank under cabinet if hose is out of reach
- Foot-pump models can go completely “off-grid”, manually pumping water to the faucet
- Plug-in water-heater model includes mixing valve to extend the available amount of hot-water

TYPES OF AVAILABLE FAUCETS

- Touchless sensor faucet reduces the spread of bacteria
- Wristblade or Handle Faucet for Manual Activation
- Simple “Gooseneck” spout (used for foot-pump model only)

**Outdoor use is dependent on the configuration - models that require electricity should not be kept outdoors*
