

Manufacturer of Healthcare and Therapy Products

CARE-WARE®

Whitehall
Manufacturing™

Whitehall Manufacturing, a division of Acorn Engineering Company, is based on the same principles set by its parent company to engineer the best product possible for the best price available. This mission has successfully continued for nearly three decades producing an extended line of bedside patient care units called Care-Ware®. Care-Ware® stations alleviate the need for separate patient restrooms and are ideally suited for bedside locations within long-term acute care facilities.

Whitehall takes great pride in knowing that it pioneered many of the designs currently used in the industry today. The tradition of innovation is evident in the Versalette® and the Swivette® Care-Ware® units. Both are dynamic, multi-functional stations consisting of a concealed toilet, large sink and counter area, bedpan washer, dialysis box, and storage areas... all in one attractive, space-saving cabinet.

Care-Ware® stations are constructed of high quality, durable materials. Made of special composites, the cabinets are stain-resistant and most can be specified with either stainless steel or china toilets. Care-Ware® units are ergonomically designed to provide comfort, convenience and dignity to the patient and the professional caregiver. Most units feature removable access panels and doors that make installation, maintenance, and cleaning easier.

SWIVETTE®

STAINLESS STEEL FRAME

The Swivette® features a swing-out stainless steel toilet concealed in an attractive cabinet. When the cabinet door is opened, the toilet automatically swings out into a lockable position. Providing complete sanitation, a lever releases the lock allowing for easy closure without ever touching the toilet. The Swivette® model #4030 series features a full cabinet height door that conceals the bedpan washer, conveniently located next to the toilet for easy washout.

The Swivette® can be customized in many ways. An optional Enviro-Glaze® color coating can be applied to the stainless steel sink and toilet. Several color choices are available along with a vast selection of cabinet, countertop, sink and faucet styles that will complement any décor. Additionally, we offer right or left opening orientation.

Model Shown:

Bedpan washer, single valve dialysis box, sensor operated and Corterra countertop with integral lavy. Enviro-Glazed® cabinet and toilet

Model # 4030-R-I-CCT-DB-I-SO

features

- Durable, long lasting materials and construction
- Commercial quality plumbing hardware
- Large sink basin and heavy gage stainless steel toilet
- Bedpan washer with flexible hose and nozzle, positive shutoff and volume control
- 3" tall backsplash
- Large hydraulic pushbutton flush valve
- Vast selection of coordinated cabinet and countertop colors
- Stainless steel toilet tested to withstand 2,500 lb weight capacity
- Optional built-in Hemo-dialysis box

Patented heavy duty cast iron pivot assembly

SWIVETTE®

STAINLESS STEEL FRAME

Whitehall offers a variety of finishes and countertops that can be customized to meet the design requirements dictated by special projects.

Model Shown:
Bedpan washer, single valve dialysis box, and
stainless steel counter with integral lavy.
Model # 4030-R-I-CS-DBI

features

- Durable, long lasting materials and construction
- Commercial quality plumbing hardware with commercial faucet and wrist blade handle.
- Large sink basin and heavy gage stainless steel toilet
- Bedpan washer with flexible hose and nozzle, positive shutoff and volume control
- 3" tall backsplash
- Large hydraulic pushbutton flush valve
- Vast selection of coordinated cabinet and countertop colors
- Stainless steel toilet tested to withstand 2,500 lb weight capacity
- Optional built-in Hemo-dialysis box

VERSALETTE®

STAINLESS STEEL FRAME

The Versalette® features a concealed fixed toilet and hinged cover that doubles as a seat. Overall, its user-friendly design is both functional and compact. The cabinet is slim in size and features rounded corners finished with soft edges. A unique angled door swings out of the way, allowing access to the bedpan washer and conveniently located toilet paper roll. The Versalette® can also be customized to your specifications. An optional Enviro-Glaze® color coating

can be applied to the stainless steel sinks and toilets. Enviro-Glaze® is a durable, chip resistant powder paint, electrostatically applied to the outside surface of the sink or toilet, then cured at temperatures in excess of 400° F. Many color choices are available to complement any décor. Additionally, we offer a vast selection of cabinet colors, countertop styles, sink and faucet types, as well as right or left opening orientation.

Model Shown:
47" wide stainless steel frame with
Corterra® countertop, bedpan washer
(standard) on-the-floor stainless steel
toilet with a 5,000lb test weight capacity and

ADA VERSALETTE®

STAINLESS STEEL FRAME

The Whitehall Versalette® model #4048 is an ADA compliant, multi-functional care station consisting of a concealed toilet, large sink, counter area and fold away bedside unit. The Versalette® is ideal for intensive care, critical care, and long term care facilities.

Model Shown:
Model # 4048ADA-R-DBI-SST-EG

features

Optional dialysis box,
standard paper holder

- ADA compliant
- Integrated 36" stainless steel grab bar
- Bedpan washer
- Durable construction and materials throughout, featuring a stainless steel frame
- Corterra® solid surface countertop (available in several colors)
- Large stainless steel "D Bowl" basin
- Commercial quality plumbing hardware
- Can be modified to accommodate various ADA requirements

Model Shown:
Model # 4048ADA-R-DBI-SST-EG

VERSALETTE®

WOOD FRAME CABINET

The wide spectrum of color options for the countertops, cabinetry and toilets, allow for the appropriate amount of design flexibility to the units. Whitehall is an authorized fabricator of some of the most respected names in solid surface and laminate finishes.

Model Shown:
Bedpan washer (standard)
Model # 4044-R-I-DB-I-CC

features

- Durable, long lasting materials and construction
- Commercial quality plumbing hardware
- Commercial quality faucet with dual wrist blade handles
- Large sink basin will hold 1,000 ml I.V. bags
- White China toilet (optional stainless steel toilet available)
- Bedpan washer with flexible hose and nozzle, positive shutoff and volume control
- Large pushbutton hydraulic flush valve
- 3" tall backsplash
- Vast selection of coordinated cabinet and countertop colors
- Toilet cover that serves as a padded seat for the examiner/visitor
- Optional foot pedal activated faucet with flip-up feature for easy cleaning
- Patented fold down seat cover assembly

Proven and accepted wood cabinetry.

SWINGETTE®

STAINLESS STEEL FRAME

The Swingette® features a hinged lavatory cabinet which conceals the floor-mounted toilet and houses the stainless steel sink. The lavatory cabinet door comes with a continuous hinge and a latch that locks it in an open or closed position. The hinged lavatory cabinet can be specified in either left or right hand orientation and can provide a degree of privacy for the user.

Model Shown:
4050-R-BW

Wall outlet, stainless steel toilet with
Cortera® counter

features

- Durable, long lasting materials and construction
- Commercial quality plumbing hardware
- 10" Gooseneck commercial faucet with dual wrist blade handles
- Large stainless steel sink basin
- Heavy gage stainless steel toilet
- Large hydraulic pushbutton flush valve
- Continuous door hinge with locking latch

MODULETTE[®]

STAINLESS STEEL FRAME

The Modulette is part of our compact series Care-Ware bedside units. It is specifically designed to replace the Modulav II[®] and is also suited for new installations. The Modulette features a fixed position toilet and a large stainless steel sink (shown with optional foot activated pedals). The toilet paper roll and pushbutton flush valve are conveniently located on the front of the unit.

Model Shown:
Wall outlet and stainless steel countertop
with integral lavy and hot & cold foot

2125A-T-3-FM SIPHON JET

options

- **-AE AERATOR** is a screen at the opening of the gooseneck faucet which adds air to the water to help control splashing.
- **-BIS BUILT-IN SEAT** is an integral part of the unit and allows for seating guests or healthcare personnel.
- **-BL BEDPAN LUGS** help with positioning the bedpan during cleaning. Bedpan lugs are available for both vitreous china and stainless steel toilets.
- **-BW BEDPAN WASHER** is conveniently located above the toilet for ease of use.
- **-BWD BEDPAN WASHER DRAIN** catches the residual water from the bedpan washer, thus aiding in sanitation.
- **-CS STAINLESS STEEL COUNTERTOP** with integral lavatory. For maximum sanitation and durability, the absence of connecting seams helps avoid bacterial build up. All exposed surfaces are polished to a satin finish.
- **-DB HEMO-DIALYSIS BOX** is offered with either dual or single supply valves and features a corrosion resistant type 316 stainless steel interior box.
- **-EC EXTENDED COUNTERTOP** gives added working surface for both patients and hospital personnel.
- **-EG ENVIRO-GLAZE®** is an electrostatically applied finish that adds color to stainless steel components. For an extended list of colors, please contact Whitehall.
- **-EP EXPOSED PAPER HOLDER** can be mounted on front of the cabinet for easy access.

- **-LFN LAMINAR FLOW NOZZLE** is a threaded faucet attachment designed for a softer, nonsplash water flow.
- **-LS LAVATORY HOSE SPRAY** operates from the same valve as the gooseneck spout and is mounted on the countertop. It is similar to a hand held spray on a kitchen faucet.
- **-MT METAL TEMPLATE** provides a pattern to assist locating rough-in dimensions.
- **-RT ROLL-AWAY SEAT & COVER** conceals the toilet bowl on the Modulette and doubles as a seat when the toilet is not in use.
- **-SO SENSOR OPERATED VALVE** provides sanitary “hands-free” washing.
- **-SS STORAGE SHELF** divides the compartment to provide additional shelf space.
- **-SST STAINLESS STEEL TOILET** is more durable, sanitary and offers a wide choice of colors with Enviro-Glaze finishes. The Versalette® uses only blow-out type toilet.
- **-ULF ULTRA LOW FLUSH** specifies only 1.6 gallons of water per flush, thereby reducing the water consumption.
- **-VF HOT & COLD FOOT PEDAL VALVE** with a gooseneck spout provide hands-free and flip-up design for easy cleaning.
- **-CCT CORTERRA® COUNTERTOP** consists of a lightweight solid surface cast polyester resin counter with a drop-in stainless steel lavy. Nine Corterra® color options are available.

THERAPY

PRODUCTS

Whitehall Manufacturing has been manufacturing health care products since 1946.

Our experience in this industry has given us insight into the care necessary for patient rehabilitation. To improve our dedication to the health care and rehabilitation community, Whitehall Manufacturing purchased the product line of Thermo Electric in February, 2008. With the acquisition of Thermo Electric products, Whitehall Manufacturing will be able to introduce improved manufacturing processes into the

Thermo Electric product line to enhance reliability and reduce cost. Whitehall Manufacturing has also enjoyed a benefit from the combining of the two companies with the addition of a well accepted Thermo Electric product line and strong product identity.

With the acquisition of Thermo Electric products, Whitehall's product line of rehabilitation equipment has become more diverse with a greater depth of products for the health care provider.

ACORN-VAC[®]

(VACUUM PLUMBING IN HEALTHCARE ENVIRONMENTS)

MEMBER OF USGBC

100% REDUCTION OF WATER CONTAMINANTS

66% REDUCTION
OF WATER CONSUMPTION

LEED BENEFITS
CONTRIBUTES TO LEED POINTS

Acorn Vac, a sister company to Whitehall Manufacturing, employs a new plumbing system that provides the healthcare industry with a way to reduce water contamination by 100%. By using a new vacuum plumbing system (an alternative to gravity plumbing), the system works in conjunction with the toilets to eliminate the vaporization of the flushing cycle. In addition, by using the Acorn Vac plumbing system, you can reduce the water used for flushing the toilet by up to 66% on a .5 gallon per flush toilet on the CareWare product. The Acorn Vac system can also be used through-out the entire hospital, thus making the water conservation significant. Furthermore, the Acorn Vac system can significantly contribute to construction LEED points.

SCRUB-WARE®

Stainless Steel Surgical Scrub Sinks

Whitehall's stainless steel surgical scrub sinks are designed and engineered to be durable, easy to maintain and convenient to use. Scrub sinks are available in single, double or triple station configurations. The sinks can be modified to accommodate ADA compliance.
