ACORN ENGINEERING COMPANY

MERIDIAN GROUP WASHING SYSTEMS

Precision Engineered Washroom Systems. Model #3703-1-DMJ-SO-PDM-SES.

STYLISH WASHROOM DESIGN

Acorn Engineering's Meridian washroom systems offer attractive and stylish solutions to outfit restrooms in offices, retail stores, restaurants, hotels and other commercial settings. Our designer commercial basins, toilets and urinals are available in stainless steel and/or Corterra, a solid surface material with a variety of colors to choose from.

Our versatile basins, toilets, and urinals can be configured with many options to suit the needs and tastes of your facility and its users, while being durable and practical enough to stand up to regular, everyday use.

Model #3703-1-DMJ-SO-PDM

An Elegant and Durable Solution. Model #M3714-IS-SQR-OF-PDM.

MERIDIAN WASHROOM SYSTEMS FEATURE:

- Stainless steel or Corterra® (solid surface material) finishes complement a wide variety of styles and offer years of trouble-free service.
- Meridian 2- to 4-station configurations employ a single P-trap, mixing valve and water supply set, which lowers installation and maintenance costs.
- Units have a pushbutton metering valve or sensor activation option, which ensures lower operating costs while conserving water and energy.
- Meridian washroom systems are ADA compliant and meet ANSI, TAS and UFAS Standards.

AVAILABLE WITH:

- -1 = Off floor
- -2, -3, or -4 = 2 to 4 stations
- -IS = Integral shelf with sensor operation
- -DMJ-SO = Deck mounted "J" spout with sensor operation
- -OF = Integral overflow
- -PDM = Deck mounted metering soap dispenser
- -SES = Stainless steel scalloped enclosure

KURVE™ SOLID SURFACE

Minimal Assembly for an Easy and Timely Installation. Model #3793-1-SO.

MODERN WASHROOM DESIGN

Meridian Kurve Washbasins are engineered to combine the durability of a commercial grade countertop and basins with the style, flexibility and accessibility required in today's restroom designs. Available in one, two, or three-station on or off-the-floor units, our countertops and basins are constructed of Corterra® cast polyester resin, a lightweight, durable, solid surface material that resists stains and burns and conforms to ANSI Z124.3 and ANSI Z124.6 standards for load ratings. Corterra® is available in a selection of colors to complement your restroom décor.

Each basin is equipped with its own grid strainer and includes the waste piping assembly with a single waste outlet and 1-1/2" P-trap. Kurve Washbasins are ADA compliant and meet TAS, UFAS and ANSI requirements.

AVAILABLE WITH:

- -1 = Off floor
- -SO = Sensor Operation
- -DV = Gravity soap dispenser

Commercial Design for Everyday Use. Model #3792-1-SO-DV.

Model #3792-1-SO.

KURVE SOLID SURFACE FEATURES

- Corterra® solid surface construction with integral shelf design, individual washbasins and drains.
- Heavy-gage, stainless steel mounting frame.
- Infrared sensor or pushbutton controlled metered valve with one-piece heavy gage stainless steel sprayhead.
- Anti-scald pressure balancing valve.
- Stainless steel trap enclosure hides P-trap, wastes and stops for an aesthetically pleasing appearance.
- Gravity soap system with filler cap.
- Available Options, page 9.

STAINLESS STEEL BASINS

An Attractive Stainless Steel Finish. Model #M3713-IS-RL-PDM-WRR.

HEAVY TRAFFIC APPLICATIONS

Contemporary aesthetics and practical durability make Meridian stainless steel washbasins ideal systems for schools, stadiums, restaurants, bars and other commercial applications. Vandal-resistant stainless steel construction ensures durability, even under heavy everyday use. Meridian units are available in a variety of configurations and can accommodate one to four separate basins. An optional Enviro-Glaze® finish allows stainless steel basins to be powder coated with any of a variety of color choices. In addition, all units are factory pre-assembled for easy installation.

Square Bowl for M3710 Series, specify -SQR option.

Meridian has a Unique Contemporary Look. Model #3703-1-DMJ-SO-PDM-SES.

STAINLESS STEEL BASINS FEATURES

- Available in single or multi-station units that can be installed in on or off-the-floor configurations.
- Single hot or cold water supply, waste connection and thermostatic mixing valve for multi-basin configurations making them more cost-effective.
- Air controlled metering valves are included. Choice of hands-free, sensor operated valve or other selections available.
- Basins are generously sized and spouts are available in a variety of user-friendly, ergonomic configurations.
- Stainless steel enclosures hide the P-traps, waste outlets and water supply lines for an aesthetically pleasing appearance.
- Meridian stainless steel washbasins are ADA Compliant and meet ANSI and UFAS standards.

AVAILABLE WITH:

- -3 or -4 = 3 to 4 stations
- -IS = Integral shelf with sensor operation
- -RL = Rounded lavatory bowl
- -DMJ-SO = Deck mounted "J" spout with sensor operation
- -PDM = Deck mounted metering soap dispenser
- -SES = Stainless steel scalloped enclosure
- -WRR = Waste receptor, right

HI-LO™ SOLID SURFACE

Meridian Corterra Hi-Lo Tri-Basin. Model #3753-1-HLH-SO-PDM.

ADA Compliant Washbasin.
Model #3752-1-HL-SO.

AVAILABLE WITH:

- 1 = Off floor
- -HLH = High low, high bowl configuration
- -HL = High low bowl configuration
- -SO = Sensor operation
- -PDM = Deck mounted metering soap dispenser

MERIDIAN HI-LO DESIGN

Meridian Hi-Lo™ two and three station washbasins are constructed from a Corterra® solid surface top and include an integrated lavy bowl with overflow. Basins are furnished complete with sensor operated faucets, check stops, supply, waste connections and a 1-1/2" single P-trap. Hi-Lo basins are designed for ADA compliance when installed properly.

MERIDIAN HI-LO FEATURES

- Sensor operation (standard) with deck mounted spout and ASSE 1070 T/P valve.
- 2 and 3 station with left or right hand configuration.
- Stainless steel enclosures hide the P-traps, waste outlets and water supply lines for an aesthetically pleasing appearance.

AVAILABLE OPTIONS

Chronomite Tankless
Electric Water Heaters

Custom Designs, Finishes and Options.

ENVIRO-GLAZE COLOR COATINGS

Stainless steel Meridian products can be specified (-EG) with an Enviro-Glaze powder coating to complement your facility. Enviro-Glaze is a durable, electro-statically sprayed powder applied to the outside of a stainless steel fixture, then cured at temperatures in excess of 400°F. The coatings are chip resistant, can endure impact and will not bubble. Available in a variety of designer colors and textures, Enviro-Glaze makes it possible for Acorn's stainless steel Meridian fixtures to retain the durability of stainless steel and still offer the aesthetics of designer fixtures.

CHRONOMITE TANKLESS ELECTRIC WATER HEATERS

Chronomite Tankless Electric Water Heaters can also be specified on Meridian basin systems. Chronomite Tankless Electric Water Heaters are water and energy saving units that are compact enough to fit out of sight in trap enclosures and meet ADA barrier-free requirements. These easy-to-install units have a digital microprocessor that controls water temperatures, eliminating the need for a mixing valve while still protecting the user from scalding.

URINALS & TOILETS

Aesthetic and Vandal-Resistant for Modern Living. Model #2158-T-1-FVBO.

Model #2158-W-1.

MERIDIAN DESIGN URINALS

Meridian urinals feature versatile good looks, vandal-resistant durability and a variety of options for customization. All units are factory pre-assembled for easy installation and comply with ANSI and UFAS standards and ADA accessibility guidelines. Typical installations include schools, stadium washrooms, restaurants, bars and commercial applications.

MERIDIAN URINAL FEATURES

- Regular models use 1 or 1.5 gallons of water per flush (GPF); the high-efficiency urinal uses only 1/8 GPF.
- Regular urinals have front and rear mount options; the high-efficiency urinal is front-mounted.
- Exposed or concealed flush valve styles available.
- Easy installation for new construction or retrofit.

AVAILABLE WITH:

- -T = Top supply
- -W = Wall supply
- -1 = Off floor
- -FVBO = Flush valve by others

Meridian tank-style toilet, wall inlet and floor outlet, stainless steel with elongated toilet bowl and toilet seat. Model #8950-3, satin finish.

Meridian siphon jet, off-floor, stainless steel toilet with black toilet seat. Model #M2141-T-1-HS-FVBO.

MERIDIAN DESIGN TOILETS

Meridian stainless steel toilets offer the best in vandal-resistance for restroom facilities in schools, stadium washrooms, restaurants, bars and commercial applications. Select a tank-style toilet with a wall inlet and floor outlet or choose from wall or floor outlets on tankless units. Meridian toilets comply with ANSI standards and ADA accessibility guidelines.

MERIDIAN TOILET FEATURES

- Front or rear mounting option.
- Uses 1.6 gallons of water per flush (GPF).
- Exposed or concealed flush valve styles available.
- Easy installation for new construction or retrofit

AVAILABLE WITH:

- -T = Top supply
- -1 = Off floor
- -HS = Hinged seat, open front less cover
- -FVBO = Flush valve by others
