

TERRAZZO-WARE™

**MOP SINKS
SHOWER BASES**

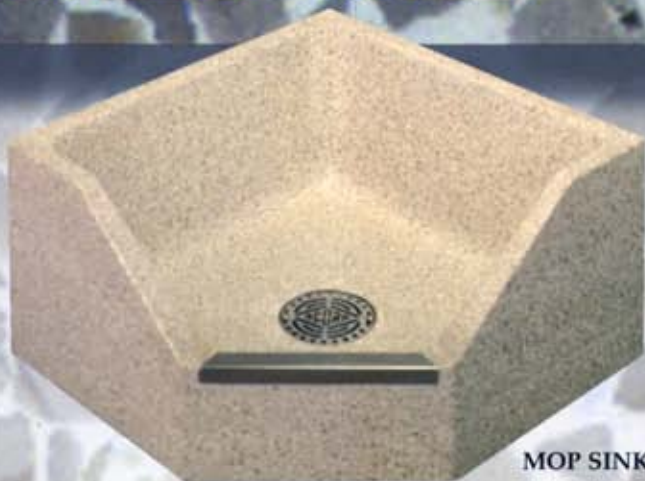

ACORN ENGINEERING COMPANY

Acorn Engineering Company continues its 40 year tradition of setting industry standards. Our adherence to strict quality control measures ensures that our customers receive the best plumbing fixtures available.

The Acorn family of products has grown substantially over the years. Our plumbing fixtures can be found in hospitals, schools, correctional facilities, industrial, corporate and sports complexes. We manufacture stainless steel showers, sinks, toilets, lavatories, bedside toilet/lavatory cabinet systems for intensive care units, surgical scrub sinks, washfountains, in addition to our complete line of terrazzo mop sinks and shower bases.

(Optional)

MIDNIGHT ROSE
(Optional)

Acorn's line of *Terrazzo-Ware™* is joined by two products, each designed to perform specific tasks. The **Mop Sink** is a versatile, easy to maintain sanitation and cleaning station. Terrazzo's natural surface provides years of dependable service. Mop Sinks are available in a variety of sizes, colors and configurations.

The *Terrazzo-Ware Shower Base* is spacious in design and easy to maintain. Formed with coved corners and pitched floors, Shower Bases are easy to keep clean and sanitary. Terrazzo Shower Bases are offered in several different sizes, colors and configurations, designed to fit the needs of your specific facility, including ADA (Americans With Disabilities Act) compliant facilities.

Acorn selected Terrazzo as the primary construction material for its line of Mop Sinks and Shower Bases because of Terrazzo's unique ability to be attractive, incredibly strong and durable. Both Mop Sinks and Shower Bases are constructed with one-piece, pre-cast Terrazzo composed of marble chips and Portland cement. The Terrazzo surface is then ground smooth and sealed for years of durable service. Mop Sinks and Shower Bases feature coved corners and pitched floors for positive drainage. Acorn offers a full line of options and accessories to complement and complete each installation.

SHOWER BASE

TERRAZZO-WARE MOP SINKS

Reduced Height Series

Terrazzo Reduced Height (TRH) mop sinks provide attractive cost effective solutions. They come standard with a stainless steel grid strainer and provide for a 3" inside caulk waste pipe connection. A beehive dome strainer is also available.

TERRAZZO-WARE SHOWER BASES

Integral Threshold Series

Integral Threshold entrance and two or three flanged sides (-2F, -3F) distinguish this broad line of attractive, spacious and durable Shower Bases offered in Corner (SBC), Square (SBS) and Rectangular (SBR) configurations. The Integral Threshold entrance allows for installation of a shower door. The shower receptacles are provided with a 2" inside caulk drain and pop-out stainless steel grid strainer and are easy to install and maintain. Custom sizes and colors are available.

TERRAZZO-WARE SHOWER BASES

Fully Flanged Series

SBS-32-FF
Shower Base Square
(Shown with Fully Flanged sides)

SBC-36-FF
Shower Base Corner
(Shown with Fully Flanged sides)

Fully Flanged on all sides, including the entrance (-FF), distinguishes this line of Shower Bases. Offered in Square (SBS), Corner (SBC) or Rectangular (SBR) configurations, the fully flanged design allows for construction of a tiled entrance and tiled walls. Shower receptacles feature a 2" inside caulk drain and a pop-out stainless steel grid strainer. Custom sizes and colors are available.

Back Outlet Series

SBS-36-BO-FF
Shower Base Square, Back Outlet
(Shown with Fully Flanged sides)

Back Outlet (-BO) Shower Bases offered in the Square (SBS) configuration are the perfect solution to rear drainage installations. Drain has a removable stainless steel strainer and a 2" NPT female connection. Back Outlet shower bases are offered as fully flanged (-FF) or with an integral threshold (-3F). Custom sizes and colors are available.

TERRAZZO-WARE SHOWER BASES

Institutional Series

Shower Bases in the Institutional Series are available in Corner (SBIC), Square (SBIS) and Rectangular (SBIR) configurations. These attractive and durable receptacles feature 6" high by 3" wide shoulders which display Terrazzo's natural beauty. The inside caulked drain comes with a pop-out stainless steel grid strainer which connects to a 2" pipe. Tiling flanges or 1" rabbets for tiled or marble walls are available options. Also available is a double receptacle within a single fixture where each receptacle of this twin unit has its own drain (specify -DD option). Custom colors and sizes are available.

TERRAZZO-WARE SHOWER BASES

Wheelchair Accessible Series

Shower Bases that are Wheelchair Accessible (SBWA) offer an attractive alternative for the physically challenged. The stainless steel ramp provides easy access while keeping water inside the shower receptacle. Shower bases feature a pop-out stainless steel grid strainer with a 2" inside caulk waste pipe connection. A floor drain near the shower entrance is recommended. Flanges on three sides (-3F) of the receptacle allow for tiled or marble wall applications. Custom sizes and colors are also available.

SBWA-6048-3F
Shower Base Wheelchair Accessible
(Shown with 3 sides Flanged)

ADA Series

Shower Bases designed for ADA compliant installations (SBADA) provide shower stall flooring as specified in the Americans With Disabilities Act (check your local codes). Shower bases feature a pop-out, stainless steel grid strainer with a 2" inside caulk waste pipe connection. Flanges on three sides (-3F) of the base allow wall tile to be applied by others to meet ADA required shower stall dimensions. A floor drain near the shower entrance is recommended. Custom colors are available.
